Summary of the grant:	<p>Through this grant, GAP Institute aims to advance democracy, promote transparency, accountability, citizen participation, and effective governance. The main goal is to empower citizens, strengthen and advance good practices of governance and local democracy, as well as improve policymaking in Kosovo municipalities. The main activities include monitoring election promises through the interactive platform "Letërnjoftimet e komunave", the publication of comparative infographics, reports, and leaflets on municipal budgets, as well as capacity building of local staff and activists through trainings and collaborations. Expected results include increased accountability, inclusion of marginalized groups in budget planning processes, improved governance practices and transparency in spending public funds. The grant will be implemented in Kosovo with a budget of 120,000 Euros over a three-year period, directly involving citizens and target groups through meetings, social media engagement and cooperation with local NGOs and activists.</p>
