

Project Fact Sheet

Project Name:	Youth Career IT Pathway-YCIP
Project Value:	Total cost of the project €170,515.18; Co-financing (if applicable) € 29,850.00
Duration:	Start Date: 01/02/2018 End Date: 31/12/2019
Organisation	RIT Kosovo (A.U.K) College- Training and Development Institute- TDI
NGOs contacts: Address, email, telephones, website	Str. Shpëtim Robaj n.n., 10000 Prishtinë +381(0)38 660 000/ +386(0)49774112 www.kosovo.rit.edu / auki@auk.org
Target groups:	200 unemployed or underemployed youth (aged 18-29 years) with pre-university level of education from the regions of Pristina, Ferizaj and Peja
Partners (if applicable):	N/A
Target Area:	The focus is on the regions of Prihtina, Ferizaj and Peja, but youth from other regions willing to participate in the training taking place in one of the stated regions will not be rejected.
Overall Objective:	The overall goal of this intervention is the training of 200 unemployed or underemployed youth, aged 18-29, from different ethnic backgrounds, with pre-university level education, with the aim to equip them with the necessary soft and technical skills to partake in the local job market and compete in the global digital economy through online work. The training will increase the opportunities for youth to partake in the labour market: domestically by easing their transition through internships and internationally through online jobs.
Activities:	There will be 200 hundred hours of training for each candidate, Soft and technical-skill development, Mentoring, Internship placement in domestic market or online job attainment in the global economy,. Certification and, Organising job fairs in Pristina, Ferizaj and Peja.
Expected Results:	Capacity building intervention will instil two types of skills among the 200 trained youth: transferable skills that are implementable across disciplines such as English language skills, communication skill, ability to work in teams, critical thinking skills, ability to solve problems and ability to apply for a job (CV writing, interview, bidding in online jobs, etc.); and ICT related technical skills focusing on the most in-demand jobs such as Web and Mobile Computing and IT Technician jobs.
