Summary of the grant:	This grant aims to identify the challenges faced by women and create a safer environment for women in Kosovo. Through activities such as drafting an assessment report on the general situation regarding forms of domestic violence, violence against women in Kosovo and identifying the concerns of women that they have about their security issues; organizing informal meetings between women and representatives of security institutions; monitoring the recruitment process in KP & KSF (gender aspects in recruitment); anonymous surveys with women in KP & KSF; monitoring cases reported to the Police for violence against women; monitoring of justice institutions - Prosecution & Court for protection orders of Courts for cases of violence against women, aims to identify the challenges faced by women, address the capacity of local mechanisms to address violence against women and girls in Kosovo. Moreover, the recruitment process in KP and KSF becomes more transparent, more sensitive to the gender component and the evaluation of the working environment for women in KP and KSF is completed. It also includes systematic monitoring of complaints, denunciations and reporting of violence against women in KP and advocating for deeper and more constructive police cooperation with Prosecutions and Courts to address reporting of violence against women.
