Total budget of the grant (EUR):	9,995.00 EUR
Budget supported by EJA Kosovo program (EUR):	9,995.00 EUR
Target groups:	• Young people • Ethnic minorities • Elderly, • Women and girls • People with respiratory diseases
Geographical scope:	Throughout Kosovo
Grant Summary:	Kosovo lacks a coordinated system for assessing environmental performance, leading to ineffective strategies, lack of monitoring and exclusion of citizens from decision-making. The “Green Barometer” project aims to address this through a comprehensive and measurable instrument that assesses indicators such as air, waste, energy, greenery and citizen engagement, increasing transparency, accountability and data-driven policymaking. It will include all municipalities, produce the first national report and conclude with an award ceremony for the best performing municipalities.
