Budget supported by EJA Kosovo program (EUR):	10,000.00 EUR
Target groups:	• The youth of Kosovo • Young artists and creators • Students of creative fields • Different ethnic and social communities
Geographical scope:	Kosovo
Summary of the grant:	The “Beyond the Parallel” project aims to empower youth in Kosovo through an educational program focused on film and visual art. Through workshops, mentoring and practical activities, the project provides participants with tools and knowledge to develop their creative skills, tell their stories and explore new forms of artistic expression. A special emphasis is placed on the inclusion of different ethnic and social communities, aiming to break down parallel and segregated structures in education. The project reserves a special space for participants from ethnic groups less represented in Kosovo, fostering intercultural dialogue, inclusion and cooperation among young people. In this way, the project contributes to the development of local creative capacities, the promotion of cultural diversity and the building of bridges of communication through art and film.
