GUIDELINES FOR NOMINATIONS FOR THE DEMOCRACY AWARD

Co-financed by:

Swiss Agency for Development
and Cooperation SDC

Introduction

Engagement for Joint Action (EJA Kosovo) is a KCSF program that supports civil society initiatives through grants and capacity building with the overall aim to contribute meaningfully to the democratic and socio-economic development of Kosovo. Designed as a pooled funding mechanism, EJA Kosovo is currently co-financed by the Swiss Agency for Development and Cooperation (SDC) and Sweden.

Centring citizen engagement and participation in the work of civil society, EJA Kosovo aims to contribute towards two main objectives (a) Increasing civic engagement in public life through participatory advocacy of civil society and (b) Enabling CSOs to strengthen their constituency relations and improve their organizational capacities.

EJA Kosovo is based on the premise that through tailor-made systems of inclusiveness, transparency and accountability on the one hand, and better access and communication with the community, on the other hand, CSOs by involving citizens in their work, can build a stronger and more engaged base of support. This strengthens their constituency and allows them to better represent the needs and concerns of the community. Together with improved internal governance, transparency, and citizen engagement, it will contribute to increased public trust in CSOs, and citizens come to see civil society as a legitimate and effective platform for raising concerns and advocating for change.

EJA Kosovo instruments of support

Recognizing the diversity of civil society and its various approaches, EJA Kosovo places a special focus on initiatives and individuals that integrate participatory practices into their work. This focus is rooted in the belief that civil society can truly address the needs of citizens only by systematically and intentionally involving them in its activities. Such inclusion not only enhances impact, transparency, and accountability but also improves internal governance practices beyond mere documentation.

Building on the existing capacities and experience within civil society, EJA Kosovo aims to bridge the gap between civil society and citizens, thereby increasing its legitimacy and influence.

To support these objectives, EJA Kosovo offers several support mechanisms: Institutional Grants, Organizational Development Grants, Project Grants, Urgent Grants, and the Annual Democracy Award. Each mechanism is designed to address specific needs within civil society, ensuring that a wide range of initiatives can access the support they require.

Democracy Award

The Democracy Award aims to recognize the contributions of individuals, unregistered initiatives, and non-governmental organizations across various fields. These contributions are the result of community mobilization, citizen engagement, intellectual courage, or remarkable achievements that have advanced the democratization of Kosovar society through their dedication and work.

Additionally, the award highlights exemplary acts of civic engagement that bring to public and institutional decision-makers' attention important themes, issues, underrepresented groups, or marginalized subjects in public life and institutional decision-making.
