<b>Summary of the grant:</b>	<p>The main goal of this project is to mobilize the local community to build a shared and long-term vision for the development of the village of Korishë as a tourist attraction.</p> <p>Through regular meetings with the community and focus groups with youth, the aim is to strengthen the sense of local responsibility and encourage active participation in planning the area's future. A vision for the development of the village and the surrounding area up to Kabash has been discussed, giving priority to the preservation of heritage and the sustainable use of existing resources.</p> <p>Tourism serves as a tool to promote local development. The project includes training to provide accommodation, traditional food, and recreational activities, as well as the promotion of hiking trails and points of interest such as waterfalls, mountains, the Illyrian fortification, and the Church of Saint Peter. A previous publication "<i>Hiking through Kabash</i>", presents 10 key points of interest, while "<i>The Tourist Offer of Korishë</i>" will be the next publication, which will structure the existing opportunities.</p> <p>Local actors, such as sports clubs and cultural associations, have also been identified, with whom the structuring of a comprehensive offer has been discussed. All project activities will be carried out in close</p>
