Implementation period	Start date: April 2022 End date: March 2023 12 months in total
Budget supported by the program	EURC Grants for Volunteerism
Total project budget	5,000.00 EUR
Geographical coverage	Gjakova
Summary of the intervention	<p>The aim of the action is to develop a comprehensive understanding and implementation of effective measures to prevent pollution and waste cleaning by visitors to the tourist areas of the villages of Has of Gjakova through the development of community capacities, primarily the youth community of these villages. Awareness of the public about its role at the center of the surrounding environment. Awareness and commitment of the community for keeping clean and preserving the environment from the impacts of waste: organic and inorganic as a result of attending tourist spots, landscapes and natural environments. The project will help place bins for waste selection along the trails frequented by visitors and with community volunteer work will organize the collection of this waste from the premises of Kusar Caves and trails to go to these tourist spots. The project will enable the collected and selected waste to be collected by licensed recyclers, while for organic ones their small-scale composting will be demonstrated - with a focus on the household. From the Educational Courses with</p>

	<p>students we expect to educate 25 students who in the future will have a predisposition to be volunteer environmentalists and who will take care of the connection "Hand in hand with nature" for their future and subsequent generations.</p>
<p>Implementation Area and Target Group</p>	<p>Gjakova Village community leaders, volunteers, students.</p>
<p>Main Activities</p>	<ol style="list-style-type: none"> 1. Establishment of the management team and the working group. Drafting a draft plan and field implementation techniques. Selection of voluntary youth groups to be involved in voluntary actions 2. Meeting with the leading structures of the villages for the presentation of the project and its discussion.
