NGOs/Unregistered Initiatives/Individuals contacts:	Name/Surname: Flutur Latifi Mobile Phone: +38345899269 E-mail: president.koms@gmail.com; koms.kosova@gmai.com
Implementation period	Start date: December 2021 End date: May 2022
Budget supported by the program	EURC Grants for Volunteerism
Total project budget	5000.00 EUR
Geographical coverage	Fushe Kosove, Ferizaj, Prishtine
Summary of the intervention	<p>The "Healthcare is a Human Rights" project basically contains the promotion of public health to marginalized groups in society, and includes the following activities: 1) Providing mammography for 50 Roma, Ashkali and Egyptian women aged 40+ in the municipalities of Ferizaj and Fushë Kosovë / Kosovo Polje and health education on the importance of mammography and breast cancer screening. 2) Health check-ups and medical advice for hypertension and diabetes for at least 100 members of the Roma, Ashkali, Egyptian community by volunteers - medical students or young doctors 3) Campaign for equality in access to services in Health Institutions through flyers and posters with guidelines for patients' rights and examples of equal treatment of patients and ethical doctor-patient communication</p> <p>Through this project we aim to increase the level of medical education of this community for fatal diseases such as breast cancer, and chronic diseases such as hypertension and diabetes by providing screening of the target community for these diseases and providing health education through information, access to which may be limited to this marginalized group of society. The expected results are the</p>

	<p>increase in the annual number of women from the Roma, Ashkali and Egyptian communities who undergo mammography as well as informing the women of this community about the importance of systematic examinations; increasing the number of health checks and care for diseases such as diabetes and hypertension.</p> <p>These services will be provided to members of the Roma, Ashkali and Egyptian communities in the municipalities of Ferizaj and Fushë Kosovë / Kosovo Polje. Mammograms will be enabled from the logistical point of view through the voluntary engagement of KOMS members (students of the Faculty of Medicine and young doctors) in Private Clinics that provide this service and health examinations will be held by the same volunteers in the period December 2021-May 2022.</p>
<p>Implementation are and target group</p>	<p>Implementation are is Fushe Kosova, Ferizaj and Prishtina and the target group are the Roma, Ashkali and Egyptian communities.</p>
