Summary of the grant:	<p>The project aims to facilitate a broad and direct discussion with the public about the rights of marginalized groups in the city. More specifically, through this project, we aim to achieve the following objectives: Increasing citizens' awareness of the rights of marginalized groups in the city and increasing the participation of marginalized groups in discussions about their social rights, economic, and political and cultural in the city. Marginalized groups living in Prizren, such as retirees, people with disabilities, women and girls, the Roma, Ashkali and Egyptian, Turkish and Bosnian communities – have often been excluded from public discourse and decision-making – due to many social, economic, and political inequalities. Thus, to build a new approach to urban development, where all marginalized groups are equally represented, we will aim to place the rights of marginalized groups in the city at the center of the discussion.</p> <p>Through interviews, video documentaries, editorials, meetings with interest groups, and public discussions, citizens will be made aware of the importance of the participation of marginalized groups in decision-making and the right to equal access to the city.</p>
