Summary of the grant:	Single Parent Association has identified many challenges in the justice system, namely the judiciary. Cases that deal with divorces despite being a priority they are not treated and that last up to 5 years in making a final decision by the court. In the absence of this decision, single mothers are substantially impaired in the overall well-being of the family as a result of the inability to benefit from social services in the absence of a final court decision. The Administrative Instruction on the procedures for submitting applications for social services is currently being worked on. The purpose of our organization with this project is to provide access to the social scheme for single mothers. Project duration is 6 months and total budget is 2,990.EUR. The grant will be implemented in Pristina but with an impact all over Kosovo.
