Target groups:	<ul style="list-style-type: none"> • (Young) women and men, • Emerging artists and arts students, • Human rights activists • Citizens • Diverse communities of practice
Geographical scope:	Prishtinë, Kosovë
Summary of the grant:	<p>Shtatëmbëdhjetë envisions a society where citizens of all genders meaningfully participate in public life through culture, education, and activism. Our project focuses on three core programs—Arts & Education, Cultural Activism, and SPACE—addressing strategic priorities such as Public Space; Cultural activism, policymaking, advocacy; Environment; Gender; Community development and cooperation; and Democracy and Human Rights. Activities include contemporary art exhibitions, workshops, residencies, and public discussions that empower communities, stimulate dialogue, and foster critical reflection. The activities across Galeria 17, Rezidenca 17, and Metamorphosis tackle socio-economic and environmental issues, involving artists, activists, and citizens. The strategy will primarily take place in Prishtina, with outreach across Kosovo and international representation, ensuring accessibility through online platforms. Target groups include emerging artists, youth, human rights activists, and diverse communities of practice, who actively participate as both creators and beneficiaries. By collaborating with public institutions and fostering community engagement, the project aims to create inclusive, sustainable spaces for cultural and social change.</p>
